

WAGNER

"The Homeland Of Catfishing"

MAGIC

"The Catfish Origin"

In my thirty as an angler, I have held hundreds of catfishing rods. As with any other thing in life, there were good ones and bad ones. After so many years, I had a clear idea of what I expected from a high-quality catfishing rod. But the road from the original vision to reality tends to be long and strenuous. Unbreakable, practical and made with state-of-the-art technologies and with a beautiful design. Those were the things that I wished to imprint on my rods. However, I would be lying if I said that I knew from the start how to achieve that. It took three years of research and development and trial and error. And mostly error, as it were the errors that helped me move forward the most as they gave me the freedom to experiment. These rods were tested over the entire course of their development by experienced catfish anglers, who also contributed greatly to making the rods what they are today. It was my wish to ensure that whenever somebody used one of my rods, they would never want to use a different rod again. A rod that would be thin, light but incredibly strong. I am convinced we succeeded in our mission.

Yours Jakub Vágner

Judge for yourself the rods from the MAGIC series.

IN-LINE

Page 11

MAGIC V-SPIN rods are designed for fishing from a boat, kayak or bellyboat in combination with a classic spinning reel. They can be used for vertical fishing, fishing with catfish clonk, drifting with a float or spinning.

There are three models in the V-SPIN series, the **15, 18 and 23 kg** version. So you can adapt your rod choice to the fishing technique and the size of the catfish at your location.

V-SPIN 15	VMV15S	50 - 200 GR
V-SPIN 18	VMV18S	80 - 300 GR
V-SPIN 23	VMV23S	100-400 GR

Real Seat:
Spinning Reel

Specifications

Blank:	Japanese 100% Toray High Performance Graphite + Camo Painting
Length:	1.95 m
Weight:	50-200 80-300 100-400 GR
Reel Seat:	FUJI DPSSD20P, LOGR20/AN
Guides:	Fuji Alconite BCMNAT, BCKWAG
Handle:	High Quality Cork Handle
Packing:	Black Soft Neoprene Cloth Bag

V-BAITCAST

MAGIC V-BAITCAST rods are also designed for fishing from a boat, kayak or bellyboat, but only in combination with a baitcast reel. They can be used for vertical fishing, fishing with catfish clonk and drifting with a float. **The 10kg model is designed specifically for spinning.**

There are four models in the V-BAITCAST series, **the 10, 15, 18 and 23 kg** version. So you can adapt your rod choice to your fishing technique, lure/bait size and the size of the catfish at your location.

V-BAITCAST 10	VMV10B	10 - 80 GR
V-BAITCAST 15	VMV15B	50 - 250 GR
V-BAITCAST 18	VMV18B	80 - 300 GR
V-BAITCAST 23	VMV23B	100 - 400 GR

Real Seat:
Baitcast Reel

Specifications

Blank:	Japanese 100% Toray High Performance Graphite + Camo Painting
Length:	1.95 m
Weight:	10-80 50-250 80-300 100-400 GR
Reel Seat:	FUJI PSDDL20GM
Guides:	Fuji Alconite BCMNAT, BCKWAG BCLCAG
Handle:	High Quality Cork Handle
Packing:	Black Soft Neoprene Cloth Bag

The **MAGIC BANK** is designed for catfish anglers who prefer to fish from the shore or from an anchored boat. It can be equipped with either a classic spinning reel or a multiplier.

MAGIC BANK was built for fishing with buoys, fishing with break lines or subfloats. This rod was built for the toughest conditions and the biggest catfish in Europe.

Specifications

Blank:	Japanese 100% Toray High Performance Graphite + Camo Painting
Lenght:	2.85 m
Weight:	400 GR
Reel Seat:	FUJI DPSM, LOGR
Guides:	SEAGUIDE BITST, BICFG
Handle:	Multi Tone Camo Eva top handle with High Quality Cork Handle at the bottom for maximum grip and the perfect balance
Packing:	Black Soft Neoprene Cloth Bag

The **MAGIC IN-LINE** rod was built for catfish anglers who enjoy fishing with a catfish clonk or any other style of vertical catfishing from a boat, kayak or bellyboat. It can be equipped with a classic spinning reel as well as a multiplier reel.

The main advantage of the **MAGIC IN-LINE** rod is line routing through the centre of the blank. There is no possibility of the line getting tangled in one of the guides during fishing. You will appreciate this especially when you hold the line in your hand and when you are striking with your hand.

Real Seat:
Spinning Reel
Multiplier Reel

Specifications

Blank:	Japanese 100% Toray High Performance Graphite + Camo Painting
Length:	2.1 m
Weight:	150-250 GR
Reel Seat:	FUJI DPSH22-20CC w Anti Slip Rubber Painting
Guides:	FUJI PHNNT, PHBNG
Handle:	High Quality Cork Handle
Packing:	Black Soft Neoprene Cloth Bag

BACRUS

On my expeditions, I've learned that there's nothing worse than having a fishing tackle you trust let you down. It has always been my dream to use equipment that I can rely on 100%. I try to develop all products in a way that makes me happy with them myself and makes fishing even more enjoyable. Because then I think the anglers who get their hands on such a product will be happy too.

The **Bagrus reel** is a combination of power and reliability. Everything I have always expected from a catfish reel. I hope it will be a support on your fishing trips and bring you many catches of a lifetime.

Max Drag:	18 kg 20 kg 30 kg

Clonk

Clonk fishing is one of the “royal” disciplines in catfish fishing. It may be an “ordinary” piece of wood, but it can also be turned into a magic wand that will help us get the fish of our dreams. These clonks are the imprint of all the knowledge that experienced catfish anglers have accumulated over 25 years of practice on the water. They combine two materials. The body of the clonk is made of wood, which gives the lure lightness and also flexibility. The heads of the clonk are made of hardened heart-shaped plastic. This gives the clonk a unique and “unheard” sound/vibration and the hardened plastic makes them resistant to damage to the head against the side of the boat.

At the beginning of this brand, there was no vision of wealth, money, or fame.

It was a huge passion and love for fishing that has driven me forward since I was a child. I tried to live life to the fullest and turn my fishing dreams into reality.

That's how this brand came about. My dream was to develop fishing equipment that would make fishing enthusiasts like me happy. My goal is not to create the biggest catfishing brand.

But I would like to create a brand that will be respected for its innovation, quality and human values. I really want this equipment to make you happy on all your fishing expeditions.
